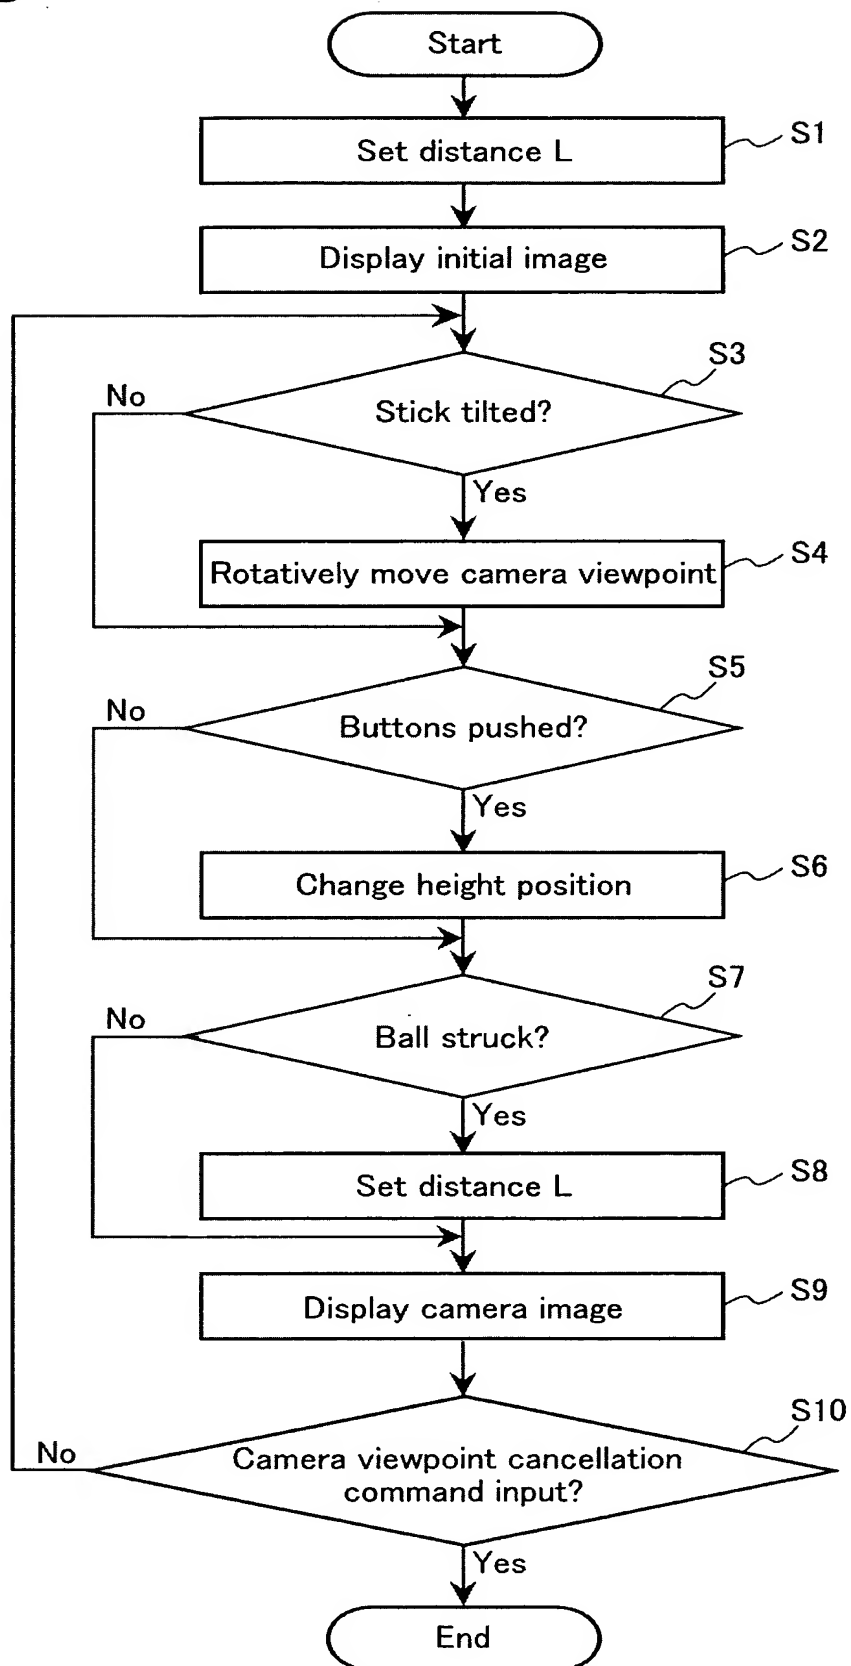

Figure 1 is a schematic diagram of a circular substrate 201. The substrate is divided into a grid of square cells 202. A portion of the grid, on the right side, is shaded with a cross-hatch pattern, labeled 203. A dashed line 203a indicates a boundary or division within the shaded region. Two small circles, 204 and 205, are located on the grid lines within the unshaded region.
